Report of the National Hearings Committee

The National Hearings Committee held a hearing on November 7, 2026 regarding charges filed against Mensa member Randall S. Henry.

The committee found that Henry had engaged in a pattern of misconduct over many years constituting acts inimical to Mensa by "threatening, intimidating, coercing, calumniating, or otherwise interfering with persons involved in the authorized activities of Mensa, including volunteers, appointees, or paid staff members". In particular, the National Hearings Committee found that Henry had physically attacked one Mensa member and physically threatened others at Regional Gatherings over a period of years.

As a result, the committee imposed a sanction of permanently prohibiting Randall S. Henry from attending any in-person local, regional, or national Mensa function, including but not limited to social events and business meetings. As the penalty imposed is neither suspension nor expulsion from American Mensa, Ltd., an automatic review by the AMC under the Bylaws of American Mensa is not available in this matter. In accordance with Hearings Rule 13.G.1, the penalties are imposed with immediate effect.
